

Welcome to the ASG Technical Documentation Library on compact disc.

View Titles

This Welcome page provides tips for using Acrobat Reader to view the publications. For more detailed information about using the Acrobat Reader view the *Reader Help* in the Help menu.

The titles of all the publications contained on this compact disc are listed. Click a title to open the PDF file for that publication.

➤ **Tips for viewing electronic documentation:**

The cursor changes to a pointing hand  when it touches a hyperlink to a chapter, section, subsection, cross-reference, or figure.

- **Hyperlinked references** are in the Contents, Index, and throughout the publication. Most cross-references and hypertext links are blue and underlined. Click a page or figure reference to display the corresponding page or figure.

Note: Refer to the CONTENTS.PDF for references to other publication titles contained on the CD. Click the CD Contents bookmark to view the CONTENTS.PDF.

- **Bookmarks** display in the left window when a publication opens. A plus sign  indicates another level of headings within a chapter, section, or subsection. Click the plus sign to display those additional headings. Scroll the list using the window's scroll bar. Click a heading name to go to that chapter, section, or subsection.

Use these buttons on the toolbar to view thumbnails, use bookmarks, or search for text in a publication.

Click the Show/Hide Navigation Panel button to display the Bookmarks and Thumbnails tab.

Click the Find button to begin a text search. Enter the text for the search in the Acrobat Find dialog box, and click Find. When your text is found, press F3 to search for the next occurrence.
