

About this Documentation

This document describes the SAF Security Kernel and its associated Daemon. It covers installation and operation of the kernel and daemon and messages and codes issued by them. The SAF Security Kernel and Daemon are distributed on the Adabas Limited Libraries (product code WAL).

	Introduction	provides an overview of the SAF Security Kernel functionality.
	Installation	describes how to install the SAF Security Kernel.
	Operator Commands	explains the available operator commands for the SAF Security Kernel.
	SAF Messages	lists the SAF Security Kernel messages.
	SAF Return and Function Codes	describes SAF return codes and internal function codes.
	Security Definitions	provides a general overview of the definition of resources to RACF, CA-Top Secret and CA-ACF2.
