

NOINT: Suppress Formatted Printout

```
ADAICK NOINT [NOUSERABEND]
```

This function suppresses the formatted printout produced by ADAICK. See the INT function for information about suspending the suppression.

Optional Parameter

NOUSERABEND: Termination without ABEND

When an error is encountered while the function is running, the utility prints an error message and terminates with user ABEND 34 (with a dump) or user ABEND 35 (without a dump).

If NOUSERABEND is specified, the utility will *not* ABEND after printing the error message. Instead, the message "utility TERMINATED DUE TO ERROR CONDITION" is displayed and the utility terminates with condition code 20.
