

Z-IN11U1

This chapter covers the following topics:

- Description
 - Parameters
 - Return Codes
 - Subprograms
-

Description

Update the document information.

Parameters which are not completed in the parameter list (except the Expiration-date) are deleted from the document information. Thus, to retain the existing values, you must specify them once more before you invoke this subprogram. You can invoke Z-IN11G2 prior to this subprogram to obtain the current values.

If the parameter Expiration-date is 0 (zero), the expiration date is not updated (i.e. the previously defined value will still be used).

Parameters

Parameter	Format	In	Out	Remarks
Return-code	N2	O	X	Input -1: no ET.
Cabinet	A8	R		The cabinet in which the document information is to be updated.
Password	A8	R		The password of the above cabinet.
Document-name	A32	R*		The name of the document for which you want to update the document information. Need not be specified, if the first line of the Description is specified. Either Document-name or ISN, not both.
ISN	P8	R*	X	The ISN of the document for which you want to update the document information. Input: either ISN or Document-name, not both. You can invoke Z-DIS11 prior to this subprogram to obtain the ISN for the desired document.
Description	A60/1:4	O		A brief description for the document. If you do not specify a Document-name, you must specify a Description.
Keywords	A15/1:6	O		Keywords are helpful when you search for an object. You can specify up to 6 keywords. A keyword must not contain an asterisk (*).
Private-flag	A1	O		If marked, the document is a private object.
Security-flags	A4	O		The security levels for Read, Modify, Copy and Print. Values 0 to 9.
Formatting-profile	A32	O		The name of the formatting profile.
Pre-format-procedures	A32/1:4	O		The names of the pre-formatting procedures.
Post-format-procedures	A32/1:4	O		The names of the post-formatting procedures.
Expiration-date	N8	O		The expiration date of the document. Format yyyyymmdd. The date you specify is checked against the default value ("Days until Expiration") specified by the system administrator. The expiration date must not be lower than the sum of the current date and the default value.
Archive-flag	A1	O		If marked, the document is stored on some other medium (e.g. on tape) when the expiration date is reached.

Return Codes

00	Success
02	Invalid cabinet name
03	Password incorrect
04	ISN was not found
08	Supply either ISN or name, not both
09	ISN does not point to correct object
16	Document is locked - editing was not completed
51	Invalid name
53	Requested object does not exist
54	At least one keyword was invalid
62	Invalid date format
70	The security levels must be numeric
71	Invalid pre-formatting procedure name
72	Invalid post-formatting procedure name
81	Invalid formatting profile name
90	Invalid expiration date
91	The security levels must not be higher than in profile
