## Description

Translate a Cnf document.

The document format of the resulting document is RFT (revisable form text DCA). Error messages produced by Con-form are suppressed.

You cannot translate a Cnf document which is currently stored in the Inbasket or Outbasket. A document in the Wastebasket, folder Work or any user-defined folder can be translated.

When the document to be translated is stored in the Wastebasket, you must specify the parameter Cnf-ISN (specifying the parameter Cnf-document-name results in the return code 53).
