| From Cabinet | A8 | |
| To Cabinet | A8 | Optional |
| Folder | A15 | Optional |

Procedure

When the inverting rules of a TRS folder are modified, previously filed documents cannot be retrieved according to the new rules. Until this utility is run, the documents can only be retrieved according to the previous inverting rules.

When the utility is run, it re-inverts all documents stored in the specified TRS folder which allows the documents to be retrieved according to the new inverting rules.

If a range of cabinets and a folder are specified, only the folder contents from the first cabinet is re-inverted. If a cabinet or a range of cabinets are specified without a folder, the contents of all TRS folders within the cabinet(s) are re-inverted.
