

Passing Sysout or Files to Entire Output Management (NOM)

After job termination, the job sysout and/or one or several files can be passed to Entire Output Management for output processing.

This section covers the following topics:

- Passing Files to NOM to Process Output
- Adding File Definition for NOM
- Spool File
- Output File - Sequential File
- Handing Over Sysout and Files to NOM
- Sysout Copy (UNIX/Windows to Mainframe)
