

# Modifying EOJ Checking and Actions

 **To modify the end-of-job checking and actions for the current run of a specific job**

1. Type **O** in the line command input field of the selected job on the Active Jobs screen.
2. Press Enter.

The End-Of-Job Handling window opens displaying the current definitions.

You can modify event and action definitions in the same way as described in the section End-Of-Job Checking and Actions.

**Note:**

Any modifications made to end-of-job handling parameters of an active job are valid for the current job run only.
