Text	NSF :1: System error, reason :2:.
Expl.	A general problem may occurred.
Actn.	Please contact your administrator.

NAT1683: NSF Logon to library :1: is denied.

Text	NSF Logon to library :1: is denied.
Expl.	You have not the permission to logon to this library. Any violation will be protocolled.
Actn.	Please contact your administrator.

NAT1684: NSF Logon to library :1: failed. No access to steplib :2:.

Text	NSF Logon to library :1: failed. No access to steplib :2:.
Expl.	The logon is rejected due missing access rights to steplib defined in the library profile.
Actn.	Please contact your administrator

NAT1685:

Actn.	Please contact your adminstrator.
-------	-----------------------------------

NAT1690: Your password is expired since :1: day(s).

NAT1691: Your password will expire in :1: day(s).

Text	Your password will expire in :1: day(s).
Expl.	If you want to change it, please do.
Actn.	Chnage your password

NAT1697: System file can only be accessed under Natural Security.

Text	System file can only be accessed under Natural Security.
Expl.	You have attempted to access a development server file whose security has been activated in Natural Security. Access to such a file is only possible in a Natural environment protected by Natural Security. However, the Natural environment in which you have tried to access the development server file is a non-Security environment.
Actn.	Please contact your Security administrator.

NAT1698: You are not authorized to execute the specified function.

Text	You are not authorized to execute the specified function.
Expl.	You have no permission to use the specified function. Possible reasons are: - Predict Security settings do not allow you to use this function. - Natural Security requires that you (or your Natural Security user group) are linked to the library SYSDIC. This link does not exist.
Actn.	Please contact your Security administrator.

NAT1699: Automatic logon failed due to invalid default library.

Text	Automatic logon failed due to invalid default library.
Expl.	Starting a Natural session with AUTO=ON requires a default library assigned to your user ID. The logon failed because the default library is not correctly assigned to your user profile.
Actn.	Please contact your Natural Security administrator.

NAT1700: This application is currently not available to you.

Text	This application is currently not available to your.
Expl.	In Natural Security, the availability of the application has been restricted to certain periods of time only; outside these times, the application cannot be used.
Actn.	Ask your Natural Security administrator at what times the application is available to you.
