

Natural System Error Messages

NAT4051-NAT4100

NAT4051: File related to user DDM does not exist.

Text	File related to user DDM does not exist.
Expl.	A VSAM user DDM is refers to a physical VSAM DDM which does not exist. A logical user DDM must have the same file number as the physical file.
Actn.	Correct the file number or create an appropriate physical VSAM DDM.

NAT4052: There is no physical file with the given number.

Text	There is no physical file with the given number.
Expl.	A VSAM DDM logically refers to a physical VSAM DDM which does not exists.
Actn.	Create an appropriate physical VSAM DDM or logically relate the DDM to another physical VSAM DDM.

NAT4053: Logical file must be of type KSDS or VRDS.

Text	Logical file must be of type KSDS or VRDS.
Actn.	Change the logical file type.

NAT4054: File number missing for related physical file.

Text	File number missing for related physical file.
Actn.	Enter a file number.

NAT4055: DDM too large, not enough size.

Text	DDM too large, not enough size.
Expl.	During a CHECK or CAT operation, a DDM is temporarily stored in an internal buffer. There is not enough space available to allocate this buffer.
Actn.	Reduce other Natural buffer sizes (e.g. ESIZE), reduce the size of the DDM, or contact your Natural administrator.

NAT4056: Primary key invalid for ESDS files.

Text	Primary key invalid for ESDS files.
Actn.	Remove the primary-key field.

NAT4057: RRDS files must not contain any key.

Text	RRDS files must not contain any key.
Actn.	Remove the key.

NAT4058: Duplicate long field name :1: not allowed.

Text	Duplicate long field name ... not allowed.
Expl.	There are two DDM fields with the same long name. This is not allowed.
Actn.	Change the long name of one of the DDM fields.

NAT4059: :1:

Text	...
Expl.	No detailed explanation available.

NAT4060: KSDS file must contain at least one primary key.

Text	KSDS file must contain at least one primary key.
Actn.	Insert a primary key in the KSDS DDM.

NAT4061: Alternate index name valid only for types "A", "X".

Text	Alternate index name valid only for types "A", "X".
Expl.	An alternate index is specified for a field, but the descriptor column of the field is not marked with "A" or "X".
Actn.	Correct error.

NAT4062: Value for :1: must be "Y" or "N".

Text	Value for ... must be "Y" or "N".
Expl.	The value for an input field must be "Y" or "N".
Actn.	Enter "Y" or "N", or contact your Natural administrator.

NAT4063: :1: must not be blank.

Text	... must not be blank.
Actn.	Enter a value other than blank, or contact a Natural administrator.

NAT4064: :1: must be :2:.

Text	... must be
Expl.	No detailed explanation available.

NAT4065: Catalog :1: disallowed by security definition.

Text	Catalog ... disallowed by security definition.
Expl.	You do not have the privileges in Natural Security to catalog this DDM.
Actn.	Specify another DDM name, or contact your Natural Security administrator

NAT4066: Catalog DDM disallowed for SYSDDM utility.

Text	Catalog DDM disallowed for SYSDDM utility.
Expl.	You do not have the privileges to catalog a DDM with the SYSDDM utility.
Actn.	Contact your Natural Security administrator.

NAT4067: Code "C" not supported. :1:

Text	Code "C" not supported. ...
Expl.	An internal error during a call to Natural Security occurred. Code "C" for the cataloging of DDMs is not known to Natural Security. Natural Security issued a response code as indicated in the error message.
Actn.	Contact your Natural Security administrator.

NAT4068: Duplicate short name :1: not allowed.

Text	Duplicate short name ... not allowed.
Expl.	It is not allowed for this DDM to use a short name more than once.
Actn.	Change the short name of a field.

NAT4069: S-Descriptor :1: must not refer to PE/MU field :2:.

Text	S-Descriptor ... must not refer to PE/MU field
Expl.	The master field of a super- or subdescriptor must not be a periodic-group or multiple-value field.
Actn.	Change the super- or subdescriptor.

NAT4070: Creator not found in DDM name, check against table not possible.

Text	Creator not found in DDM name, check against table not possible.
Expl.	The DDM name of an SQL DDM is supposed to consist of the creator name and the table name separated by a "-". If the creator and table name cannot be identified, the SQL DDM cannot be checked against a SQL table. Note that there is no check against the SQL table when you catalog the DDM.
Actn.	Use a DDM name which consists of a creator name and a table name separated by a hyphen "-".

NAT4071: Return code :1: after Adabas LF-command.

Text	Return code ... after Adabas LF-command.
Expl.	An Adabas LF-command was issued to retrieve the field characteristics of a FDT. A non-zero return code was received after the call.
Actn.	Check the file number of the FDT, or contact a Natural administrator.

NAT4072: This command is disallowed.

Text	This command is disallowed.
Expl.	There was an attempt to perform a function which is disallowed by Natural Security.
Actn.	Contact your Natural Security administrator.

NAT4073: Specify table name and creator name.

Text	Specify table name and creator name.
Expl.	The creator name or the table name of a SQL table was missing during an attempt to generate a DDM from a SQL table.
Actn.	Make sure both the creator name and the table name are specified.

NAT4074: Table :1: created by :2: not found.

Text	Table ... created by ... not found.
Expl.	The SQL table from which you wanted to create a DDM was not found.
Actn.	Either create the SQL table, or issue the correct creator name and table name.

NAT4075: Too many columns for view (< 750).

Text	Too many columns for view (< 750).
Expl.	The SQL table from which you wanted to generate a DDM has too many columns. The maximum number of columns is 750.
Actn.	Reduce the number of columns in the table.

NAT4076: Error :1: parsing SQL View (NATG0301).

Text	Error ... parsing SQL View (NATG0301).
Expl.	The error occurred during a check of a view for updateable fields. There may be an error in the view definition.
Actn.	Contact your Natural administrator.

NAT4077: Table :1: has no columns.

Text	Table ... has no columns.
Expl.	An attempt was made to generate a DDM from an SQL table which has no columns.
Actn.	Contact your Natural administrator.

NAT4078: Too many columns - cannot generate short names.

Text	Too many columns - cannot generate short names.
Expl.	There is a limited number of short names for key fields and non-key fields in SQL DDMs. The maximum number of one kind of field has been exceeded.
Actn.	Reduce the number of columns in the SQL table.

NAT4079: Invalid database number.

Text	Invalid database number.
Expl.	A database number was issued which is not valid in the context.
Actn.	Enter another database number.

NAT4080: DDM already defined on database other than DB2.

Text	DDM already defined on database other than DB2.
Expl.	You were trying to catalog a DDM whose name already exists, although not for DB2.
Actn.	Use another name for the DDM.

NAT4081: DB2 not active, DDM cannot be tested.

Text	DB2 not active, DDM cannot be tested.
Expl.	An attempt was made to check a DB2 DDM against the DB2 database, but Natural has detected that DB2 is not active.
Actn.	Contact your Natural administrator.

NAT4082: Null indicator must be of type I2.

Text	Null indicator must be of type I2.
Expl.	A null indicator is not of the required format and length.
Actn.	Change the format and/or length of the null indicator.

NAT4083: The format of a long alpha field must be A253.

Text	The format of a long alpha field must be A253.
Actn.	Change the format/length of the field.

NAT4084: Null indicator is a descriptor.

Text	Null indicator is a descriptor.
Expl.	The null indicator is defined as a descriptor, but the null indicator field in the DDM is not a descriptor.
Actn.	Define the null indicator field of the DDM as a descriptor.

NAT4085: A null indicator and its field must have equal short name.

Text	A null indicator and its field must have equal short name.
Expl.	The short name of a field and the short name of the corresponding null indicator must be the same.
Actn.	Change the short name of the null indicator.

NAT4086: Invalid null indicator field name.

Text	Invalid null indicator field name.
Expl.	The long name of a null indicator must be the long name of the corresponding field prefixed by N@.
Actn.	Change the long name of the null indicator.

NAT4087: Format must be binary (B).

Text	Format must be binary (B).
Expl.	The format of a field was found to be binary when the DDM was checked against the database.
Actn.	Change the format of the field to binary.

NAT4090: CMZUL :2: with response code :1:.

Text	CMZUL ... with response code
Expl.	There has been an error calling the CMZUL editor.
Actn.	Contact your Natural administrator.

NAT4091: Invalid file number.

Text	Invalid file number.
Expl.	A file number in the range from 1 to 5000 must be entered.
Actn.	Enter a valid file number.

NAT4092: CICS file name missing.

Text	CICS file name missing.
------	-------------------------

NAT4093: Only K,E,R,V (file-org); Y,N (compress); F,C (zone) allowed.

Text	Only K,E,R,V (file-org); Y,N (compress); F,C (zone) allowed.
------	--

NAT4094: Y (compress) only allowed for KSDS, ESDS and VRDS files.

Text	Y (compress) only allowed for KSDS, ESDS and VRDS files.
------	--

NAT4095: Invalid command, please enter valid command.

Text	Invalid command, please enter valid command.
Expl.	A command has been entered which is not valid.
Actn.	Make sure to enter a valid command.

NAT4096: Element length cannot be greater than :1:.

Text	Element length cannot be greater than
Expl.	For a field, a length has been entered which is longer than the maximum for this field type.
Actn.	Check and enter correct length.

NAT4097: Function cancelled.

Text	Function cancelled.
Expl.	A function has been cancelled by the user.
Actn.	No action required.

NAT4098: Database ID :1: not valid for DB2 tables.

Text	Database ID ... not valid for DB2 tables.
Actn.	Enter or select a valid database ID.

NAT4099: Not allowed to write a Super Natural user file.

Text	Not allowed to write a Super Natural user file.
Expl.	A Super Natural user file will be generated by a Super Natural application. You can read or list the file and store or backup it with another file type. But it is not allowed to change it, because the Super Natural application which uses the file may not longer run.

NAT4100: Please specify a file name.

Text	Please specify a file name.
Expl.	If the function LIST FILE is selected, a file name must be specified.
Actn.	Enter function and file name.
