

# Natural Nucleus Error Messages NAT9051-NAT9100

## **NAT9100: Printer :1: not available.**

Text	Printer ... not available.
Expl.	A printout was requested for a printer number which is not defined for the NATURAL session. Printers may be defined as follows: - in batch, with appropriate job control statements; - online, with dynamic NATURAL parameters.
Actn.	Make sure that the definitions of printers agree with printer references in programs.
