

DSLM - Size Limitation

This Natural profile parameter is for UNIX and Windows platforms only.

It limits index values, number of array occurrences and array sizes to the limits applicable for Natural Version 3.1 for Mainframes. The parameter is used for compatibility reasons only.

Note:

This parameter will be removed with the next Natural version.

Possible settings	ON	The above mentioned items will be limited.
	OFF	No limit is in effect.
Default setting	OFF	
Dynamic specification	YES	
Specification within session	NO
