

MP - Maximum Number of Pages of a Report

This Natural profile and session parameter is for mainframes only.

It determines the maximum number of pages to be produced for a report.

Within a Natural session, the setting of profile parameter MP can be reduced, but not increased by the FORMAT statement. The value specified with the session parameter MP applies only to the specified report.

Possible settings	1 - 99999	The value specified is the number of physical pages and has no effect on the starting page number used. The program will be terminated with an error message if the MP value is exceeded.	
	0	No page limit is defined.	
Default setting	0		
Dynamic specification	YES		
Specification within session	NO	Applicable Statements:	DISPLAY FORMAT PRINT WRITE
		Applicable Command:	None

For details on session parameter specification at statement or element level and evaluation at compilation time or at runtime, refer to Session Parameter Specification/Evaluation Overview.
