

AUTO - Automatic Logon

This Natural profile parameter is for:

- mainframes
- UNIX and Windows

It causes an automatic logon to a specific library at the start of the Natural session.

Possible settings	ON	An automatic logon is executed at the start of the Natural session.
	OFF	No automatic logon is performed.
Default setting	OFF	
Dynamic specification	YES	
Specification within session	NO	

Mainframes

The setting contained in the system variable *INIT-USER is used as the user ID for the logon.

Note:

If used with Natural Security, AUTO=ON disables logons with another user ID (see your Natural Security documentation for further information).

UNIX and Windows

The setting of the profile parameter INIT-LIB is used as library ID for the logon.

Note:

If used with Natural Security, AUTO=ON disables logons with another user ID, and the INIT-LIB parameter is not evaluated (see the Natural Security documentation for further information).
