

NATUNLD/NATLOAD Utilities - Overview

The library SYSUNLD contains two utilities: NATUNLD and NATLOAD.

The utilities NATUNLD and NATLOAD are available with Natural on mainframes and UNIX. The description in this section applies to NATUNLD and NATLOAD on any of these platforms.

The usage of NATUNLD and NATLOAD can be controlled with Natural Security, so that some NATUNLD/NATLOAD functions may not be available to you.

If you have specified MENU as startup program, set the parameter "Batch execution" to **N** in the Natural Security library profile of the library SYSUNLD.

The NATUNLD/NATLOAD utilities documentation covers the following topics:

- **Introduction** General Information on the use of NATUNLD and NATLOAD.
 Invoking NATUNLD or NATLOAD.
- **NATUNLD** Unloading Natural programming objects, error messages and DDMs from system files to a
 Utility work file.
- **NATLOAD** Loading Natural programming objects, error messages and DDMs from a work file to
 Utility system files.
- **Direct Commands** Executing direct commands available with NATUNLD and NATLOAD.
