

Direct and PROCEDURE Workplan Syntax

This section describes the syntax of Natural Object Handler clauses that apply when maintaining Workplans. The symbols used in the diagrams are explained in the section System Command Syntax in the Natural Command Reference documentation.

Depending on the type of Workplan (see the relevant section in Workplans), the following clauses apply:

The SELECTION Workplan contains the Select-Clause,
LIST contains Object List,
PARAMETER contains Parameter-Setting and
PROCEDURE contains an Object Handler procedure.
The TEXT Workplan only contains commentary text.

Note:

The notation "see (*)" in the tables in this section regarding the name, date and time parameters refers to the section Name, Date and Time Specification.

This section covers the following topics:

- Select-Clause
- Object List
- Parameter-Setting
- Option-Setting
