

Natural Security Recover

This function of the INPL utility is used to force an initialization of the Natural Security environment. You can

- Reset the Environment or
 - Remove Owners
-

Reset Environment

Execution of this function will reset the user profile DBA and the library profile SYSSEC as well as the link between these two objects as they were after the initial installation; all other links to the library SYSSEC will be cancelled. Other Natural Security profiles and links will not be modified.

Contact Software AG Support for further information.

To reset the environment

- On the INPL menu, enter Function Code **R**.

Remove Owners

To remove owners

- On the INPL menu, enter Function Code **R** and Code **O** in the Replace field to reset the owner information of the objects selected.
