

# IM - INPUT Mode

Parameter	Possible Values	Default Value	Applicable Statements
IM	F, D	F	SET GLOBALS

With this parameter, you determine the input mode.

<b>IM=D</b>	Delimiter mode.
<b>IM=F</b>	Forms mode.

The default mode for video terminal input is forms mode.

The IM setting may also be changed with the terminal commands %D and %F.

See the INPUT statement for additional information on delimiter mode and forms mode.

## Example:

```
SET GLOBALS IM=D
```
