

SM - Structured Mode

Parameter	Possible Values	Default Value	Applicable Statements
SM	ON / OFF	OFF	GLOBALS system command

This parameter determines whether structured mode has to be used.

If structured mode (SM=ON) was specified by the Natural administrator during Natural installation, this parameter cannot be set to "OFF". Otherwise with SM=OFF the mode may be changed as desired.

Example:

```
GLOBALS SM=ON
```

Note:

If Natural Security is installed, this parameter may be disabled by Natural SECURITY to the effect that structured mode is invariably in effect for a given library.
