

ZP - Zero Printing

Parameter	Possible Values	Default Value	Applicable Statements
ZP	ON / OFF	ON	DISPLAY FORMAT INPUT PRINT REINPUT SET GLOBALS WRITE

With this parameter you can suppress the display of a numeric field (format N, I, P or F) or time field (format T) which contains a value of all zeros.

ZP=ON	A field value which consists of all zeros will be displayed as one zero (for numeric field) or all zeros (for a time field) respectively.
ZP=OFF	A field value which consists of all zeros will not be displayed.

Example:

```
FORMAT ZP=OFF
```
