

# Purge Data on Transfer Medium

The function Purge Data on Transfer Medium deletes the entire contents of the transfer medium.

## Calling the Function

Enter code T in the Coordinator Menu or enter command PURGE.

The Purge data on transfer medium function is called with code D in the Coordinator Menu.

## Parameters Required for the Function

- Medium type must be D (database file).
- DBnr and Fnr must be specified.
- If the database is protected by password and cipher, these must be entered, too.
- Transfer medium ID must be specified. Enter an asterisk in field Identification to select a transfer medium ID for the specified database and file number.

Keyword	Field	Position	Remarks
MEDIUM-ID	Identification	1	
MEDIUM-DBNR	DBnr	2	These parameters are obligatory.
MEDIUM-FNR	Fnr	3	
MEDIUM-PASSWORD	Password	4	These parameters are only required if the Coordinator FDIC is protected by password and cipher.
MEDIUM-CIPHER	Cipher	5
