

User/Owner

The object type user contains information on users and organizational units, such as name, ID or position within the company.

One attribute of this object type is owner. Groups of users reflecting organizational units, such as project teams, can be formed by assigning individual users to an owner. Each user can belong to several owners. Owners can be associated to other types of Predict objects. See also User/Owner and Keyword in the section **Overview of Predict** in the **Introduction to Predict documentation**.

This section covers the following topics:

- User/Owner Maintenance Menu
- User Maintenance
- User Retrieval
- Owner Maintenance
- Owner Retrieval
