

# System Maintenance Aid - Overview

System Maintenance Aid is Software AG's product for the installation and maintenance of Software AG host products. In the remainder of this documentation System Maintenance Aid is also referred to as SMA.

- Release Notes Version 1.3.1
- Concepts of System Maintenance Aid
- Menus and Line Commands
- Direct Commands
- Using the Editor and Help Facility
- JCL Skeletons
- SMA Data Topics
- Using System Maintenance Aid
- Installing System Maintenance Aid
- Using System Maintenance Aid in Batch Mode
- BS2000 Installation Job Conventions
- Reserved Keywords

**Note:**

The notation *nnn* in dataset names represents the version number of the product.

For technical reasons the terminology of operating systems used in the SMA documentation does not comply with official standards:

Standard	SMA
OS/390	OS/MVS
VSE/ESA	VSE/SP
BS2000/OSD	BS2000
