

# Control of Activity Monitoring

This subsection covers the following topics:

- Invoking the Activity Monitoring Window
- Field Descriptions: Entire Operations Activity Monitoring

## Invoking the Activity Monitoring Window

Allows interaction with non-conversational Entire Operations Activity Monitoring displays started on other terminals. They can be stopped, or the interval time can be modified.

### To open the Activity Monitoring window

- Mark Control of Activity Monitoring with any character and press Enter:

A window opens:

```

20.11.01                *** Entire Operations 4.1.1 ***                15:37:06
                        Special Function Selection

## Field Descriptions: Entire Operations Activity Monitoring

Meaning of the input fields:

Field	Meaning
on Terminal	Specifies the terminal to be handled. Enter an asterisk * and press Enter to select a terminal from a list of active terminals.
Stop	Mark this field with any character to stop activity monitoring for the selected terminal.
Start at	Modify the date and time to specify when the display of activities will restart.
Interval	Specifies the interval, in seconds, between updates of the automatic display for the selected terminal.

See the subsection Activity Monitoring for more details.
