

# Selecting Range of Networks to be Listed

You can specify the range of networks to be listed by entering one or more of the following values in the Selection field on the Network Maintenance screen and pressing Enter:

Value	Description
A	Only networks with at least one active run are listed.
G	Granted networks are listed for Owner selected on Network Maintenance screen (excluding current owner).
O	Networks of current owner are listed. Owner selected on Network Maintenance screen has no effect.
R	Number of active runs is shown in the #Run column. Using this option could increase database access.

You **must** specify at least either **O** or **G**. You **can** specify both **O** and **G** together. The default value is OR.

If you enter a question mark ? in the Selection field and press Enter, the following selection window opens:

```

20.11.01          *** Entire Operations 4.1.1 ***          10:35:44
