

Modifying an Input Condition Definition

► To modify an existing input condition definition

1. Type **M** in the line command input field of the selected condition on the Input Condition Maintenance screen.
2. Press Enter.
3. The Master Input Condition Modification window (similar to the Addition window under Adding a Master Input Condition) containing the current values opens. You can now modify the parameters.
4. Press PF5 (Save) to save modified input condition.
