

# Creating Online Documentation for Events

You can write or modify a text description of any event or of any job status according to All checks ok and Any check not ok status.

## To do that

1. Type **P** in the line command input field of the appropriate event on the End-of-Job Checking and Actions screen. Press Enter.

The Entire Operations Editor screen appears.

2. You can write a text using Editor commands. A full description of the Entire Operations Editor is contained in the **Software AG Editor Documentation**.
