

Active Job List: Status Selection

- You can list active jobs according to their processing status by entering one or more of the following values in the Selection field on the Active Jobs screen and pressing Enter:

Value	Description
A	All active jobs (default).
E	All active jobs waiting for at least one event.
H	All jobs in HOLD.
I	All jobs in the scheduling system input queue.
N	All jobs with job not OK terminating status.
O	All jobs with job OK terminating status.
S	All submitted jobs.
T	All terminated jobs.
W	Planned network runs waiting for activation.
X	All jobs in execution.

The default setting is **AW** (all active jobs and the planned network runs waiting for activation).

- Alternatively, you can enter an asterisk * in the Selection field and press Enter, to open the following selection window:

```
