# Cancelling a Planned Job Activation

Cancel the planned activation of a job in a planned network run that is waiting for activation(jobs listed when W is entered in the Selection field at the top left of the Active Jobs screen)

**To do so:**

1. Type **D** in the line command input field of the selected job on the Active Jobs screen.
2. Press Enter.
3. A window opens in which you must confirm cancellation:

```

15.11.01          *** Entire Operations 4.1.1 ***          11:06:27
