

# Reporting Overview

This subsection covers the following topics:

- Entire Operations Reporting Facility (New Reports)
- Entire Operations Reporting Facility (Old Reports)
- Invoking the Old Reports

## Entire Operations Reporting Facility (New Reports)

- Special PF Key

With Entire Operations Version 4.1.1, a new reporting facility has been introduced. The new menu is shown below.

```

06.11.01          *** Entire Operations 4.1.1 ***          16:56:54
Owner EXAMPLE          Reporting Menu          User ID UKSJU
-----
Reporting Menu

Command => _____
Enter-PF1---PF2---PF3---PF4---PF5---PF6---PF7---PF8---PF9---PF10--PF11--PF12---
      Help      End   Old                               Menu

```

## Special PF Key

Key	Name	Function
PF4	Old	Access the report facility provided with previous version of Entire Operations.

For further information about New Reporting, please refer to New Reporting Documentation.

## Entire Operations Reporting Facility (Old Reports)

The Entire Operations Reporting facility makes a number of different reports available. They include information at the job and event level, information on job network definitions and schedules and overviews of schedules and planned activations.

## Invoking the Old Reports

- Special PF Key

### To invoke the old reports

1. Select the Reports option on the Entire Operations Main Menu.
2. Press **PF4** Old.

The Old Reporting Menu appears:

```

02.11.01          *** Entire Operations 4.1.1 ***          16:13:42
Owner EXAMPLE          Reporting Menu          User ID GHH
-----
Reporting Menu

1 Log - Terminated Jobs
2 Log - Abended Jobs
3 Log - Jobs not started
4 Accounting Data
5 Network Description (short)
6 Network Description (detailed)
7 Network Job Flow Display
8 Schedule of Jobs
9 Network Activation Summary
10 Network Schedule Overview

Command => _____
Enter-PF1---PF2---PF3---PF4---PF5---PF6---PF7---PF8---PF9---PF10--PF11--PF12---
      Help          End   New                               Menu
    
```

The available options on the old Reports menu are described in the following subsections.

Most reports are available not only online, but also in batch. For further information, see Producing Reports in Batch.

## Special PF Key

<b>Key</b>	<b>Name</b>	<b>Function</b>
PF4	New	Return to the New Reporting Menu.
