

# Natural Security Definitions

If Natural Security is installed at your site, you must create the following definitions:

- Applications
  - User
- 

## Applications

Application	Description
SYSSAT	System Automation Tools application.
SYSSATU	System Automation Tools user library.

## User

Define the Natural Security User representing the various servers of the SAT product family as **person** with User ID and password identical to <NSCUSER> and <NSCPSWD> parameters described in the subsection Parameter Blocks and Parameters.

Specify PRIVATE LIBRARY=YES.

If you define the above applications **people-protected**, you must link this User to them.
