

# Authorization Classes

This section lists the available authorization classes and the Natural ISPF objects they refer to.

- Authorization classes as they appear in the Class column of the table are assigned authorization levels in user definitions (see the Natural ISPF Administration Documentation).
- The codes in the Code column of the table are used in menu lines in menu definitions, as well as in the Site Control Table.

Code	Class	Natural ISPF Objects
1	VSE/ESA files	VSE/ESA files
2	VSE/ESA SYSOUT	SYSOUT of VSE/ESA jobs
3	Active jobs	Active jobs (OS/390 and VSE/ESA)
