

BMCONTROL - Display Control Characters

This Natural profile parameter is for UNIX/OpenVMS and Windows platforms and applies to batch mode only.

It controls the output of control characters (such as form feed and line feed) in the batch output file CMPRINT.

| | | |
|-------------------------------------|-----|---|
| Possible settings | ON | Control characters will be written to CMPRINT. |
| | OFF | No control characters will be written to CMPRINT. |
| Default setting | ON | |
| Dynamic specification | YES | |
| Specification within session | NO | |
