

TC - Trailing Characters

Parameter	Possible Values	Default Value	Applicable Statements
TC	any character	none	DISPLAY FORMAT

With this parameter, you can specify trailing characters that are to be displayed immediately to the right of a field output with a DISPLAY statement. The width of the output column is enlarged accordingly.

Up to 10 characters may be specified. Trailing characters may optionally be specified enclosed within apostrophes, in which case any characters can be specified. Any character string specified which contains a closing parenthesis or a quotation mark must be enclosed within apostrophes.

Examples:

```
FORMAT TC=*  
DISPLAY (TC='*B*')
```
