

# GFID - Global Format IDs

This Natural profile parameter is for UNIX/OpenVMS and Windows platforms only.

It allows you to control Natural's internal generation of global format IDs so as to influence Adabas's performance concerning the re-usability of format buffer translations.

<b>Possible settings</b>	ON	Global format IDs are generated for all views.
	OFF	Global format IDs are not generated.
	VID	Global format IDs are generated only for views in local/global data areas, but not for views defined within programs.
<b>Default setting</b>	ON	
<b>Dynamic specification</b>	YES	
<b>Specification within session</b>	NO	

For details on global format IDs, see the Adabas documentation.
