

SPoD Administration Policies and Procedures - Overview

This documentation provides information which is required to be able to administer a Natural development environment that is based on the Natural Single Point of Development (SPoD) approach.

It is primarily aimed at those who are responsible for setting up an effective working environment for Natural application developers and covers the following topics:

Administration Policies and Procedures

- Installing Natural Single Point of Development
- Configuring Natural Single Point of Development
- System Management Hub Installation for Natural Manager
- Using the System Management Hub with Natural
